| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant fragment of human IL3RA protein (around aa 26-171) (exact sequence is proprietary)                                                                                                                                                                |
| Product Description        | CD123 is an interleukin 3 specific subunit of a heterodimeric cytokine receptor. The receptor is comprised of a ligand specific alpha subunit and a signal transducing beta subunit shared by the receptors for interleukin 3 (IL3), colony stimulating fa... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.2 mg/mL                                                                                                                                                                                                                                                     |
| Clone Designation          | [IL3RA/1531]                                                                                                                                                                                                                                                  |
| Molecular Weight           | 70 kDa                                                                                                                                                                                                                                                        |
