| Conjugation                | RPE                                                                                                                                                                                                                                                           |
| Product Description        | CD19 (clone SJ25C1) is a mouse monoclonal antibody that recognizes the human protein CD19. CD19 is a common marker of B cells, and is a B cell coreceptor. This R-PE antibody conjugate has been validated in flow cytometry. It is supplied at 5 uL/test,... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 50 ug/mL                                                                                                                                                                                                                                                      |
| Clone Designation          | [SJ25C1]                                                                                                                                                                                                                                                      |
| Molecular Weight           | 95 kDa                                                                                                                                                                                                                                                        |

|                   |                                                                             |
|-------------------|-----------------------------------------------------------------------------|
| UniProt           | <a href="#">P15391</a>                                                      |
| Buffer            | PBS, 0.1% BSA, 0.05% azide                                                  |
| Source            | Animal                                                                      |
| Application Notes | Recommended concentration for flow cytometry: 5 uL per million cells/0.1 mL |
