| Product Description        | The GluR1 Colorimetric Cell-Based ELISA Kit is a convenient, lysate-free, high throughput and sensitive assay kit that can detect GluR1 protein expression profile in cells. The kit can be used for measuring the relative amounts of GluR1 in cultured c... |
| Range                      | At least 5000 cells/well                                                                                                                                                                                                                                      |
