| Alternative Catalog Number | ANO-MO-P40007A-0.5MG, ANO-MO-P40007A-0.1MG                                                                                                             |
| Manufacturer               | Anogen-Yes Biotech Laboratories                                                                                                                        |
| Host                       | Mouse                                                                                                                                                  |
| Category                   | Antikörper                                                                                                                                             |
| Application                | EIA, WB                                                                                                                                                |
| Species Reactivity         | Human                                                                                                                                                  |
| Immunogen                  | A short peptide (ASWGGTPEERLKC) corresponding to the amino acids on the 2nd extracellular loop of human FPRL1 is conjugated with KLH for immunization. |
| Product Description        | Mouse monoclonal antibody against the 2nd extracellular loop of human formyl peptide-receptor-like-1 (FPRL1)...                                        |
| Clonality                  | Monoclonal                                                                                                                                             |
| Clone Designation          | [3D7]                                                                                                                                                  |
| Isotype                    | IgG1,k                                                                                                                                                 |
| Purity                     | Protein G affinity purified                                                                                                                            |

|                    |                                                                                                                                                 |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Form               | Aff. pur.                                                                                                                                       |
| Storage            | Store at -20°C                                                                                                                                  |
| Target             | The 2nd extracellular loop of human formyl peptide-receptor-like-1 (FPRL1)                                                                      |
| Application Dilute | Double distilled water is recommended to adjust the final concentration to 1.00 mg/ml.                                                          |
| Application Notes  | ELISA: In indirect ELISA, the antibody is reactive to the peptide (ASWGGTPEERLKC) from the 2nd extracellular loop of human FPRL1. Western blot. |
