| Application                | ELISA                                                                                                                                                                                                                              |
| Species Reactivity         | Human                                                                                                                                                                                                                              |
| Product Description        | Human CD35 ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human CD35 in serum, plasma, tissue homogenates, cell lysates or other biological fluids.... |
| Range                      | 0.312-20 ng/ml                                                                                                                                                                                                                     |
| Sensitivity                | 0.11 ng/ml                                                                                                                                                                                                                         |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates or other biological fluids.                                                                                                                                                        |
| Target                     | CD35                                                                                                                                                                                                                               |
