| Product Description        | Human C1QTNF9 ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human C1QTNF9 in serum, plasma or other biological fluids.... |
| Range                      | 3.12-200 ng/ml                                                                                                                                                                                         |
| Sensitivity                | 1.32 ng/ml                                                                                                                                                                                             |
| Samples                    | Serum, plasma or other biological fluids.                                                                                                                                                              |
| Target                     | C1QTNF9                                                                                                                                                                                                |
