| Product Description        | Human FUT6 ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human FUT6 in serum, plasma, tissue homogenates or other biological fluids.... |
| Range                      | 1.56-100 ng/ml                                                                                                                                                                                                       |
| Sensitivity                | 0.65 ng/ml                                                                                                                                                                                                           |
| Samples                    | Serum, plasma, tissue homogenates or other biological fluids.                                                                                                                                                        |
| Target                     | FUT6                                                                                                                                                                                                                 |
