| Species Reactivity         | Human                                                                                                                                                                                                                            |
| Product Description        | Human Serpin A5 ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human Serpin A5 in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 1.25-80 ng/ml                                                                                                                                                                                                                    |
| Sensitivity                | 0.75 ng/ml                                                                                                                                                                                                                       |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                                  |
| Target                     | Serpin A5                                                                                                                                                                                                                        |
