| Species Reactivity         | Rat                                                                                                                                                                                                                                                              |
| Product Description        | This GENLISA Rat Platelet Derived Growth Factor C (PDGFC) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated... |
| Range                      | 0.312 - 20 ng/ml                                                                                                                                                                                                                                                 |
| Sensitivity                | 0.128 ng/ml                                                                                                                                                                                                                                                      |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                            |
