| Product Description        | This GENLISA Rat Pulmonary Surfactant Associated Protein D (SPD) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision... |
| Range                      | 78.125 - 5000 pg/ml                                                                                                                                                                                                                                           |
| Sensitivity                | 46.875 pg/ml                                                                                                                                                                                                                                                  |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
