| Product Description        | This GENLISA Rat Eosinophil Peroxidase (EPX) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated against s... |
| Range                      | 1.56 - 100 ng/ml                                                                                                                                                                                                                                              |
| Sensitivity                | 0.61 ng/ml                                                                                                                                                                                                                                                    |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
