| Product Description        | This GENLISA Rat Myosin Heavy Chain 8, Skeletal Muscle, Perinatal (MYH8) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and P... |
| Range                      | 62.50 - 4000 pg/ml                                                                                                                                                                                                                                            |
| Sensitivity                | 24.8 pg/ml                                                                                                                                                                                                                                                    |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
