| Product Description        | beta-Ureidopropionase is a cytoplasmic protein which belongs to the CN hydrolase family of BUP subfamily. beta-Ureidopropionase binds one zinc ion per subunit, catalyzes the last step in the pyrimidine degradation pathway. beta-Ureidopropionase can c... |
| Molecular Weight           | 44.22 KDa                                                                                                                                                                                                                                                     |
