| Product Description        | This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse FGF23. Standards or samples are added to the micro ELISA plate wells and combined with the specific an... |
| Range                      | 15.63-1000pg/mL                                                                                                                                                                                                                                               |
| Sensitivity                | 9.38pg/mL                                                                                                                                                                                                                                                     |
| Samples                    | Serum, plasma and other biological fluids                                                                                                                                                                                                                     |
| Target                     | FGF23                                                                                                                                                                                                                                                         |
