| Article Name               | Alagebrium chloride, CAS [[341028-37-3]]                                                            |
| Biozol Catalog Number      | AMO-M10648                                                                                          |
| Supplier Catalog Number    | M10648                                                                                              |
| Alternative Catalog Number | AMO-M10648-200MG, AMO-M10648-500MG                                                                  |
| Manufacturer               | Abmole Bioscience                                                                                   |
| Category                   | Biochemikalien                                                                                      |
| Product Description        | Alagebrium Chloride, also known as ALT711, is an advanced glycation end product (AGE) inhibitor.... |
| Molecular Weight           | 267.77                                                                                              |
| Purity                     | 99.98%                                                                                              |
| CAS Number                 | [341028-37-3]                                                                                       |
| Formula                    | C13H14ClNOS                                                                                         |
| Target                     | Metabolite/Endogenous Metabolite                                                                    |
