| Category                   | Biochemikalien                                                                                     |
| Product Description        | 4-Azidobenzenesulfonamide (Compound 12) is a precursor for the synthesis of 1,2,3-triazoles[1].... |
| Molecular Weight           | 198.20                                                                                             |
| Purity                     | 90.000000                                                                                          |
| CAS Number                 | [36326-86-0]                                                                                       |
| Formula                    | C6H6N4O2S                                                                                          |
| Target                     | Drug Intermediate                                                                                  |
| Application Notes          | MCE Product type: Reference compound                                                               |
