| Manufacturer               | Echelon Biosciences                                                                                                                                                                                                                                           |
| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | PolyPIPosomes are polymerized liposomes that show markedly increased stability (up to 6 months) vs. conventional liposomes. A biotin tag is incorporated for easy detection of PIPn-binding proteins with streptavidin reagents. - Uniform size (~200 nm) ... |
| Application Notes          | Categories: Biochemical Reagents. Related: Phosphoinositides, PI(3,5)P2, PolyPIPosomes. Ship 1 : Shipping Temp. Ship 2: Gel Ice                                                                                                                               |
