| Category                   | Kits/Assays                                                                                                                                                                                                                                                  |
| Species Reactivity         | Human                                                                                                                                                                                                                                                        |
| Product Description        | The GENLISA Human CT19 ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated against seven points for a "GO... |
| Range                      | 234.375 - 15000 pg/ml                                                                                                                                                                                                                                        |
| Sensitivity                | 200 pg/ml                                                                                                                                                                                                                                                    |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids. For tear samples, please connect with us to discuss further.                                                                                           |
| Application Notes          | Colorimetric, Absorbance measured at 450nm                                                                                                                                                                                                                   |
