| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Human POU3F2 mRNA encodes the human POU class 3 homeobox 2 (POU3F2) protein, a member of the POU-III class of neural transcription factors. POU3F2 is involved in neuronal differentiation and enhances the activation of corticotropin-releasing hormone ... |
| Target                     | mRNA                                                                                                                                                                                                                                                          |
| Application Notes          | MCE Product type: Oligonucleotides                                                                                                                                                                                                                            |
