| Manufacturer               | MedchemExpress                                                                                                                                                                                                                                                 |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                               |
| Product Description        | The PVR/CD155 protein plays a key role in initiating natural killer (NK) cell effector functions by binding to CD96 and CD226 receptors. These interactions form mature immune synapses that trigger adhesion, lytic granule secretion, interferon-gamma (...) |
| Molecular Weight           | Approximately 80-120 kDa, based on SDS-PAGE under reducing conditions, due to the glycosylation.                                                                                                                                                               |
| Purity                     | 95                                                                                                                                                                                                                                                             |
| Formula                    | 52118(Gene_ID)Q8K094 (D29-L348)(Accession)                                                                                                                                                                                                                     |
| Application Notes          | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                         |
