| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant full-length human PCNA protein                                                                                                                                                                                                                    |
| Product Description        | Recognizes a non-histone protein of 36kDa, which is identified as proliferating cell nuclear antigen (PCNA). It is also known as cyclin or polymerase delta auxiliary protein. Elevated expression of PCNA/cyclin has been shown in the nucleus during lat... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [PCNA/13725R]                                                                                                                                                                                                                                                 |
| Molecular Weight           | 36kDa                                                                                                                                                                                                                                                         |
