| Immunogen                  | Recombinant fragment of human TIM3 protein (around aa1-200) (exact sequence is proprietary)                                                                                                                                                                                                                       |
| Product Description        | TIMs are type I transmembrane glycoproteins with one Ig-like V-type domain and a Ser/Thr-rich mucin stalk. TIM-3 is expressed on the surface of effector T cells (CD4+ OOT <sub>h</sub> 1 and CD8+ OOT <sub>c</sub> 1) but not on helper T cells (CD4+ OOT <sub>h</sub> 2 and CD8+ OOT <sub>c</sub> 2). In chr... |
