| Species Reactivity         | Mouse                                                                                                                                                                                                                                      |
| Product Description        | This is an pre-made gene silencing adenovirus that expresses a shRNA to knockdown mouse PKC-alpha gene. The shRNA expression is driven by an U6 promoter.The knockdown of this mouse gene was validated by western blot in C2C12 cells.... |
| Buffer                     | DMEM, 2% BSA, 2.5% Glycerol                                                                                                                                                                                                                |
