| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Species Reactivity         | Bovine                                                                                                                                                                                                                                                        |
| Product Description        | This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Bovine VIP. During the reaction, Bovine VIP in the sample or standard competes with a fixed amount of Bovine VIP on the solid pha... |
| Range                      | 6.17-500pg/mL                                                                                                                                                                                                                                                 |
| Sensitivity                | 2.63pg/mL                                                                                                                                                                                                                                                     |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | VIP                                                                                                                                                                                                                                                           |
