| Species Reactivity         | Bovine                                                                                                                                                                                                                                                        |
| Product Description        | This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Bovine DNASE1. Standards or samples are added to the micro ELISA plate wells and combined with the specific ... |
| Range                      | 15.6-1000ng/mL                                                                                                                                                                                                                                                |
| Sensitivity                | 6.0ng/mL                                                                                                                                                                                                                                                      |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | DNASE1                                                                                                                                                                                                                                                        |
