| Species Reactivity         | Rat                                                                                                                                                                                                                                                           |
| Product Description        | This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat CD40. Standards or samples are added to the micro ELISA plate wells and combined with the specific antib... |
| Range                      | 15.6-1000pg/mL                                                                                                                                                                                                                                                |
| Sensitivity                | 5.8pg/mL                                                                                                                                                                                                                                                      |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | CD40                                                                                                                                                                                                                                                          |
