| Product Description        | This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat PAI2. Standards or samples are added to the micro ELISA plate wells and combined with the specific antib... |
| Range                      | 1.56-100ng/mL                                                                                                                                                                                                                                                 |
| Sensitivity                | 0.57ng/mL                                                                                                                                                                                                                                                     |
| Samples                    | Serum, plasma and other biological fluids                                                                                                                                                                                                                     |
| Target                     | PAI2                                                                                                                                                                                                                                                          |
