| Manufacturer               | EnkiLife                                                                                                                                                                                                                                                      |
| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Species Reactivity         | All                                                                                                                                                                                                                                                           |
| Product Description        | This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with SMD. During the reaction, SMD in the sample or standard competes with a fixed amount of SMD on the solid phase supporter for site... |
| Range                      | 0.781-200ng/mL                                                                                                                                                                                                                                                |
| Sensitivity                | 0.274ng/mL                                                                                                                                                                                                                                                    |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | SMD                                                                                                                                                                                                                                                           |
