| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Species Reactivity         | All                                                                                                                                                                                                                                                           |
| Product Description        | This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with VK1. During the reaction, VK1 in the sample or standard competes with a fixed amount of VK1 on the solid phase supporter for site... |
| Range                      | 123.5-10000pg/mL                                                                                                                                                                                                                                              |
| Sensitivity                | 55.3pg/mL                                                                                                                                                                                                                                                     |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | VK1                                                                                                                                                                                                                                                           |
