| Product Description        | Tcell surface glycoprotein CD3 delta & CD3 gamma chain, also known as CD3D & CD3G or CD3D&CD3G respectively, are singlepass type I membrane proteins. CD3D, together with CD3 epsilon(CD3E) , CD3gamma and CD3zeta, and the Tcell receptor alpha/beta and ... |
| Molecular Weight           | 39.2 kDa (CD3E) & 38.6 kDa (CD3G)                                                                                                                                                                                                                             |
| Tag                        | C-Fc & C-6*His   C-Fc & C-Flag                                                                                                                                                                                                                                |
| NCBI                       | <a href="#">07766</a>                                                                                                                                                                                                                                         |
| Buffer                     | PBS, pH7.4                                                                                                                                                                                                                                                    |
| Purity                     | 95%                                                                                                                                                                                                                                                           |
