| Product Description        | FGF basic is a member of the FGF family of at least 23 related mitogenic proteins which show 3560% amino acid conservation. FGF acidic and basic, unlike the other members of the family, lack signal peptides and are apparently secreted by mechanisms o... |
| Molecular Weight           | 20.1 kDa                                                                                                                                                                                                                                                      |
