| Alternative Catalog Number | ECH-P-B034A-100UL, ECH-P-B034A-1ML                                                                                                                                                                                                                                                        |
| Manufacturer               | Echelon Biosciences                                                                                                                                                                                                                                                                       |
| Category                   | Molekularbiologie                                                                                                                                                                                                                                                                         |
| Product Description        | PI(3,4)P2 PIP Beads <sup>TM</sup> are composed of agarose with 10 nanomoles of bound PI(3,4)P2 per mL of beads, enough for several protein binding experiment. Each 1 mL order of PIP Beads includes a small amount of control beads. Larger quantities of <a href="#">Control Bea...</a> |
| Application Notes          | Categories: Biochemical Reagents. Related: Beads, Phosphoinositides, PI(3,4)P2. Ship 1 : Shipping Temp. Ship 2: Gel Ice                                                                                                                                                                   |
