| Article Name               | ELISA Kit for Estriol (E3)                                                                           |
| Biozol Catalog Number      | USC-CEA455GE                                                                                         |
| Supplier Catalog Number    | CEA455Ge                                                                                             |
| Alternative Catalog Number | USC-CEA455GE-48, USC-CEA455GE-96                                                                     |
| Manufacturer               | Cloud-Clone                                                                                          |
| Category                   | Kits/Assays                                                                                          |
| Species Reactivity         | All                                                                                                  |
| Product Description        | 48T, 96T, 96T*5, 96T*10, 96T*100...                                                                  |
| Range                      | 1.23-100ng/mL                                                                                        |
| Sensitivity                | The minimum detectable dose of this kit is typically less than 0.47ng/mL                             |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids |
| Application Notes          | Enzyme-linked immunosorbent assay for Antigen Detection.                                             |
