| Article Name               | CLIA Kit for Neutrophil gelatinase-associated lipocalin (NGAL)                                             |
| Biozol Catalog Number      | USC-SCB388MU                                                                                               |
| Supplier Catalog Number    | SCB388Mu                                                                                                   |
| Alternative Catalog Number | USC-SCB388MU-48, USC-SCB388MU-96                                                                           |
| Manufacturer               | Cloud-Clone                                                                                                |
| Category                   | Kits/Assays                                                                                                |
| Species Reactivity         | Mouse                                                                                                      |
| Product Description        | 48T, 96T, 96T*5, 96T*10, 96T*100...                                                                        |
| Range                      | 27.4-20,000pg/mL                                                                                           |
| Sensitivity                | The minimum detectable dose of this kit is typically less than 10.2pg/mL                                   |
| UniProt                    | <a href="#">P11672</a>                                                                                     |
| Samples                    | serum, plasma,urine, tissue homogenates, cell lysates, cell culture supernates and other biological fluids |
| Application Notes          | Chemiluminescent immunoassay for Antigen Detection.                                                        |
