| Application                | FACS, IF, WB                                                                                                                                                                                                                                                  |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | A recombinant human partial protein (amino acids 1-433) was used as the immunogen for the Adenomatous polyposis coli antibody.                                                                                                                                |
| Product Description        | The adenomatous polyposis syndromes, familial adenomatous polyposis (FAP) and Gardners syndrome (GS), are characterized by numerous adenomatous polyps throughout the entire colon. These polyps invariably progress to colon cancer in addition to other ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [ALi 12-28]                                                                                                                                                                                                                                                   |
| UniProt                    | <a href="#">P25054</a>                                                                                                                                                                                                                                        |
| Purity                     | Protein G affinity chromatography                                                                                                                                                                                                                             |

|                    |                                                                                                            |
|--------------------|------------------------------------------------------------------------------------------------------------|
| Form               | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide                                 |
| Antibody Type      | Primary Antibody                                                                                           |
| Application Dilute | Flow cytometry: 1-2ug/10 <sup>6</sup> cells in 0.1ml, Immunofluorescence: 1-2ug/ml, Western blot: 1-2ug/ml |
| Application Notes  | Optimal dilution of the Adenomatous polyposis coli antibody should be determined by the researcher.        |
