| Species Reactivity         | Bovine, Canine, Human, Mouse, Porcine, Rabbit, Rat, Sheep                                                                                                                                                                                                     |
| Immunogen                  | The immunogen is a synthetic peptide directed towards the N terminal region of human BCL2L1                                                                                                                                                                   |
| Product Description        | BCL2L1 encodes a protein which belongs to the BCL-2 protein family. The proteins encoded by BCL2L1 are located at the outer mitochondrial membrane, and have been shown to regulate outer mitochondrial membrane channel (VDAC) opening. VDAC regulates mi... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molecular Weight           | 26kDa                                                                                                                                                                                                                                                         |
| NCBI                       | <a href="#">598</a>                                                                                                                                                                                                                                           |
