| Species Reactivity         | Bovine, Canine, Equine, Guinea pig, Human, Mouse, Porcine, Rabbit, Rat, Zebrafish                                                                                                                                                                             |
| Product Description        | This gene encodes a component of prolyl 4-hydroxylase, a key enzyme in collagen synthesis composed of two identical alpha subunits and two beta subunits. The encoded protein is one of several different types of alpha subunits and provides the major p... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molecular Weight           | 58kDa                                                                                                                                                                                                                                                         |
