| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | Galectin-10 (Gal-10) is a lectin family member and is one of the prototype galectins. It contains one carbohydrate recognition domain (CRD), responsible for beta-galactoside binding, and is biologically active as homodimers. It has been reported that... |
| Molecular Weight           | 36.7 kDa                                                                                                                                                                                                                                                      |
| Tag                        | Galectin-10                                                                                                                                                                                                                                                   |
| UniProt                    | <a href="#">Q05315</a>                                                                                                                                                                                                                                        |
| Purity                     | >98% as determined by SDS-PAGE.                                                                                                                                                                                                                               |
| Form                       | Lyophilized from PBS, pH 7.4                                                                                                                                                                                                                                  |
| Sequence                   | Amino acid sequence derived from Human Galectin-10 (Ser 2-Arg 142) (Q05315) was expressed with 6*His tag at the N-terminus.                                                                                                                                   |
| Application Notes          | Human                                                                                                                                                                                                                                                         |
