| Manufacturer               | Focus Biomolecules                                                                                                                                                                                                            |
| Category                   | Biochemikalien                                                                                                                                                                                                                |
| Product Description        | L-type Ca channel blocker...                                                                                                                                                                                                  |
| Molecular Weight           | 371.40                                                                                                                                                                                                                        |
| Purity                     | 99% by TLC, NMR Conforms                                                                                                                                                                                                      |
| Form                       | Yellow solid                                                                                                                                                                                                                  |
| CAS Number                 | [75695-93-1]                                                                                                                                                                                                                  |
| Formula                    | C <sub>19</sub> H <sub>21</sub> N <sub>3</sub> O <sub>5</sub>                                                                                                                                                                 |
| Application Notes          | L-type calcium channel blocker. Displays antiatherosclerotic effects and improves endothelium-mediated nitric oxide-dependent vasodilation. Displays neuroprotective activity in rat models. Orally active and cell permeable |
