| Product Description        | The GENLISA Human Glutamate Receptor Ionotropic N-Methyl-D-Aspartate 2D (GRIN2D) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accura... |
| Range                      | 0.312 - 20 ng/ml                                                                                                                                                                                                                                              |
| Sensitivity                | 0.123 ng/ml                                                                                                                                                                                                                                                   |
| Samples                    | Serum, Plasma, Cell Culture Supernatant and other biological samples. Validated for citrated/EDTA Plasma only.                                                                                                                                                |
