| Alternative Catalog Number | USB-B0003-67F-25                                                                                                                                                                                                                                              |
| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Application                | ELISA, FC                                                                                                                                                                                                                                                     |
| Product Description        | The human B cell activating factor (BAFF,TALL-1, Blys, THANK) and APRIL(a proliferation inducing ligand) are both type II molecules belonging to the TNF superfamily. They are expressed by non-B cells, and are down regulated by mitogenic stimulation(2... |
| Molecular Weight           | 38.5                                                                                                                                                                                                                                                          |
| NCBI                       | <a href="#">006564</a>                                                                                                                                                                                                                                        |
| Purity                     | Purified by affinity chromatography.                                                                                                                                                                                                                          |
| Form                       | Supplied as a liquid in FBS, 50mM Sodium Phosphate pH 7.5, 100mM Potassium Chloride, 150mM NaCl, 5% Glycerol, 0.2% BSA, 0.04% NaN3.                                                                                                                           |
