| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Application                | ELISA, WB                                                                                                                                                                                                                                                     |
| Product Description        | Recombinant protein corresponding to aa31-105 with a GST Tag at the N-Terminal, immunodominant region of the Rubella virus E2, expressed in E. coli. Specificity: Reacts strongly with human Rubella postive serum. Applications: Suitable for use in ELIS... |
| Purity                     | 90% (SDS-PAGE, Bradford)                                                                                                                                                                                                                                      |
| Form                       | Supplied as a liquid in 20mM Tris-HCl, pH 8.0, 1.5M urea                                                                                                                                                                                                      |
