| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                  | Superoxide dismutase isolated and purified from bovine erythrocytes.                                                                                                                                                                                          |
| Product Description        | Applications: Suitable for use in Immunoelectrophoresis, RID, ELISA, Western Blot and Inhibition. Other applications have not been tested. Recommended Dilutions: Optimal dilutions to be determined by the researcher. Storage and Stability: Lyophilized... |
| Purity                     | Purified by ammonium sulphate precipitation and ion exchange chromatography.                                                                                                                                                                                  |
| Form                       | Supplied as a lyophilized powder from PBS, pH 7.2. No preservatives added. Reconstitute with 1ml sterile ddH2O.                                                                                                                                               |
