### Taste Receptor 1 (TR1), Rabbit USB-T1024-01D

|                            |   |
|----------------------------|---|
| Article Name               | Taste Receptor 1 (TR1), Rabbit  |
| Biozol Catalog Number      | USB-T1024-01D   |
| Supplier Catalog Number    | T1024-01D   |
| Alternative Catalog Number | USB-T1024-01D-100   |
| Manufacturer               | US Biological   |
| Host                       | Rabbit  |
| Category                   | Antikörper  |
| Application                | ELISA   |
| Immunogen                  | KLH-conjugated 24-amino acid peptide sequence near the C-terminus of rat TR1. This sequence has no significant homology with TRS or gustducin or pheromone receptors. Species sequence homology: mouse (100%), human (87%).                                   |
| Product Description        | Higher vertebrates are believed to possess at least five basic tastes: Sweet, bitter, sour, salty, and unami (the taste of monosodium glutamate). Taste receptor cells that may selectively reside in various parts of the tongue and respond to different... |
| Purity                     | Purified by immunoaffinity chromatography.  |
| Form                       | Supplied as a powder lyophilized from a solution containing PBS and 0.1% BSA. Reconstitute with 100ul sterile PBS.  |
