## Product Datasheet

### **Ubiquitin Conjugating Enzyme E2N (UBE2N, Ubc13, Ubch-ben) (HRP), Clone: [4E11], Mouse, Monoclonal USB-U1000-92B-HRP**

|                            |                                                                                                                                                                                                                                                               |

| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, IF, WB                                                                                                                                                                                                                                                 |
| Immunogen                  | Recombinant human Ubc13.                                                                                                                                                                                                                                      |
| Product Description        | The Ubc13 protein was first identified for its unique role in ubiquitin chain assembly at the Lys63 residue of ubiquitin, rather than the conventional Lys48 site. Ubc13, which acts as an E2 ubiquitin-conjugating enzyme, must first form a complex with... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [4E11]                                                                                                                                                                                                                                                        |
| Purity                     | Purified by Protein A chromatography                                                                                                                                                                                                                          |
| Form                       | Supplied as a liquid in PBS, pH 7.2. No preservatives added. Labeled with horseradish peroxidase (HRP).                                                                                                                                                       |
