## Product Datasheet

### **Valproic Acid-d6 (2-(Propyl-3,3,3-d3)pentanoic-5,5,5-d3 Acid), CAS [[87745-18-4]] USB-V2001-07**

|                            |                                                                                                                                                                                                                                                               |

| Alternative Catalog Number | USB-V2001-07-5                                                                                                                                                                                                                                                |
| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Category                   | Biochemikalien                                                                                                                                                                                                                                                |
| Product Description        | Method for Determining Identity: Proton NMR Spectroscopic and Mass Spectrometric Analysis Solubility: Chloroform, Ethyle Acetate TLC Conditions: SiO2, hexane: Ethyl Acetate = 8:2, Visulaized with AMCS, Single spot=0.45 Normalized Intensity: d0=0.12%,... |
| Molecular Weight           | 150.25                                                                                                                                                                                                                                                        |
| Purity                     | 90%                                                                                                                                                                                                                                                           |
| Form                       | Supplied as a pale yellow, clear, liquid                                                                                                                                                                                                                      |
| CAS Number                 | [87745-18-4]                                                                                                                                                                                                                                                  |
