| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Vitronectin is an abundant glycoprotein present in plasma and the extracellular matrix of most tissues. Though the precise function of VN in vivo is unknown, it has been implicated as a participant in diverse biological processes, including cell atta... |
| Molecular Weight           | 75                                                                                                                                                                                                                                                            |
| Purity                     | 95% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Form                       | Supplied as a liquid in 0.05M sodium phosphate, 0.1M sodium chloride, 1mM EDTA, pH 7.4.                                                                                                                                                                       |
