| Alternative Catalog Number | USB-W1018-40D-FITC-100                                                                                                                                                                                                                                        |
| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | FLISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                  | Synthetic peptide corresponding to 15aa from near the C-terminus of West Nile virus core protein. Epitope: within aa80-130 of West Nile Virus Core.                                                                                                           |
| Product Description        | WNV belongs to the Flaviviridae family which includes closely viruses such as Dengue fever, Yellow fever and Tick borne encephalitis. West Nile Virus particles consist of a dense core made up of the core/capsid protein encapsulating the RNA genome su... |
| NCBI                       | <a href="#">776011</a>                                                                                                                                                                                                                                        |
| Purity                     | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Form                       | Supplied as a liquid in PBS, pH 7.2. Labeled with Fluorescein isothiocyanate (FITC).                                                                                                                                                                          |
