## Product Datasheet

**West Nile Virus, Envelope (West Nile Virus E Protein, WNV Envelope Protein, Envelope Protein, Genome Polyprotein, Major Envelope Protein E, WNVgp1) (PE), Rabbit  
USB-W1018-50G-PE**

|                            |                                                                                                                                                                                                                                                               |

| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | FLISA                                                                                                                                                                                                                                                         |
| Immunogen                  | Synthetic peptide corresponding to 15aa near the center of the West Nile virus envelope protein.                                                                                                                                                              |
| Product Description        | West Nile Virus (WNV) is a member of the Flaviviridae, a plus-stranded virus family that includes St. Louis encephalitis virus, yellow fever virus, and Dengue virus. WNV was initially isolated in 1937 in the West Nile region of Uganda and has become ... |
| NCBI                       | <a href="#">776014</a>                                                                                                                                                                                                                                        |
| Purity                     | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Form                       | Supplied as a liquid in PBS, pH 7.2. No preservative added. No stabilizing proteins added. Labeled with R-Phycoerythrin (PE).                                                                                                                                 |
