| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | Source : Human Cells,Insulin-like growth factor-binding protein 1 (IGFBP1) is encoded by 259 amino acid (aa) with 25 aa residue signal peptide that is processed to generate the 234 aa residue mature protein. IGF-binding proteins prolong the half-life... |
